

JAPAN IS YIELDING TO THE PRESSURE

MIKADO BECOMING TRACTABLE IN REGARD TO HAWAII.

Payment of the \$100,000 Likely to Quiet the Immigration Issue—Naniwa Leaves Honolulu—Official Report Received at the State Department.

Washington, Sept. 29.—An official announcement of the departure of the Japanese cruiser Naniwa for Yokohama, together with the statement that the immigration question between Japan and Hawaii is likely to be shortly settled, without arbitration, has thrown a peaceful aspect around American questions in the Pacific.

This cheering news has been communicated to the state department by Minister Sewall, stationed at Honolulu, whose mail reports have just reached the department. The most important statement made by Minister Sewall is that the Hawaiian Japanese authorities have figures that \$100,000 in gold will settle the claims of the latter against the Dole authorities as a result of the rejection as immigrants of some 1,200 immigrants who came to the islands last spring.

Heretofore Japan has sheltered herself behind the statement that Hawaii must admit first the "principle of monetary liability," and when this admission had been made she would be willing to discuss the amount that should be paid to save the wound her dignity had suffered.

The fact that the mikado is now willing to discuss the amount that Japan claims is due her instead of the principle, means in the opinion of state department officials, that if necessary the Dole authorities can rid themselves of a troublesome question before congress convenes so that Hawaii may present herself for admission to the union free from foreign complications.

Gen. Tracy for Mayor.
New York, Sept. 29.—The Republican ticket for the leading officials of Greater New York is now in the field,

GEN. TRACY.

and its make-up shows that Senator Thomas C. Platt retains his hold on the party organization. The slate as hitherto announced went through without a hitch in the convention. General Benjamin F. Tracy, secretary of the navy under President Harrison, is the nominee for mayor.

EXPERT FOR DEFENSE.

Dr. B. L. Riese on the Witness Stand in Behalf of Luetgert.

Chicago, Sept. 29.—In the Luetgert trial yesterday Dr. B. L. Riese told about disintegrating human bodies in the factory vat; the defense claims his experiments prove the impossibility of the theory of the alleged murder; state's attorney says he would have made a good witness for the prosecution. Armide Updike said he saw Mrs. Luetgert near Lake Zurich May 9. H. Wade Gillis telegraphed that he has found two farmers who saw Mrs. Luetgert in his office at Tekamah, Neb.

Double Murder in Detroit.

Detroit, Mich., Sept. 29.—At about 8:30 o'clock Tuesday night Frank Padellin, Sr., a trunkmaker living at 1345 Medbury avenue, killed his son, Frank Padellin, shot his wife in the right shoulder, and killed Joseph Stadelmann, a contractor who lived across the street. The murderer has not yet been captured.

No Reciprocity With Germany.

Berlin, Sept. 29.—The statement published in the German newspapers that the United States ambassador, Andrew D. White, has been instructed to negotiate a reciprocity treaty between the United States and Germany is pronounced to be absolutely without foundation in fact.

Say Struble Died by Suicide.

Shepherd, Mich., Sept. 29.—The coroner's jury in the inquest upon the death of Cashier Struble rendered a verdict of suicide Tuesday morning. The verdict was reached after eighteen hours' deliberation. Monday two of the jurors held to the murder theory, but both were won over.

End of Des Moines Miners' Strike.

Des Moines, Iowa, Sept. 29.—A hundred miners went to work in the Des Moines district mines on Tuesday, practically beginning the end of the local strike. Sept. 1,900 men struck for the dollar scale and a few days later agreed on 85 cents. The men who return to work will be paid the usual fall advance of 10 cents on 70 cents Oct. 1.

THINKS OUTLOOK IS GOOD.

Prominent Bimetallist Talks of the Situation.

Vancouver, B. C., Sept. 29.—James Roache, M. P. for East Kerry, Ireland, is now in the Slocan district of Kootenai. Mr. Roache is deeply interested in the silver question, and as he was a member of the conference that recently dealt with that question in the land his views should prove interesting. In an interview Mr. Roache says:

"We have the strongest assurance from Mr. Chamberlain and Mr. Balfour that an international conference will be called at Brussels in May. I think the business transacted at Brussels will result in the reopening of the India mints at least.

"Senator Wolcott, of whom so much has been heard on the bimetallic question, is an exceedingly clever man and a powerful champion of the cause. Though considered a free lance by the public generally in the voicing of his views while in England, I have the strongest reasons for believing that he was an accredited representative of the United States government on that occasion.

"Next to the United States the strongest supporters of bimetallicism are the French, and I think the recent action of the Bank of England, which has given rise to much discussion, was the outcome of diplomatic representations made by the French. I believe we have not done as much for the cause in two or three years as the Bank of England has done at one stroke."

AS TO RECIPROCITY.

How It Can Be Fostered with South American Countries.

Washington, Sept. 29.—Joseph P. Smith, director of the bureau of American republics, will have an article in the forthcoming bulletin of the bureau outlining the extent to which, in his opinion, reciprocity can be applied under the new tariff law in fostering the trade between the United States and Mexico, Central America, and the West Indies. He shows the expansion of this trade through recent improved means of communication, by rail and steamship, and concerning Mexico says: "If transportation enterprises are supplemented by a wise system of reciprocity there will be no bounds to the development of mutually beneficial trade under the stimulus of closer intercourse and a better acquaintance. The tariffs of the two countries levy duties on the products of each, which afford the basis for advantageous concessions."

Entire Township Swept.

Buffalo, Wyo., Sept. 29.—C. W. Greene, special agent of the general land office, who has been investigating the forest fires in this vicinity and aiding the settlers in the work of extinguishing them, reports that the big pine fire is blazing in so inaccessible a part of the canon that it is impossible to put it out. The fire has swept over an entire township of heavy timber, and at least 3,000,000 feet have been destroyed. A slight snowstorm the 15th had the effect of checking the spread of the flames.

Docks for Naval Vessels.

Washington, Sept. 29.—The Bunce board, appointed by Acting Secretary Roosevelt, to report on the needs of the navy with reference to docks, is ready to submit its preliminary conclusions. It is understood the board will recommend the construction of one floating dock and several concrete docks. These latter may be built at Boston, Portsmouth, N. H., Norfolk, Va., and Mare Island, Cal. Each dock will be a huge structure and cost approximately \$1,500,000.

Pythian Silver Anniversary.

St. Paul, Sept. 29.—Pythian knighthood in Minnesota is 21 years old. In recognition of its silver anniversary the grand lodge assembled Tuesday. Led by the local lodges the delegates were escorted to the state capitol, where they were welcomed by Governor Clough and Mayor Doran, and there was response by Grand Chancellor Stratton. Silver badges were then presented to the grand lodge delegates as appropriate to the anniversary.

Turks Were the Aggressors.

Teheran, Sept. 29.—The inquiry made into the fighting which took place on the Turko-Persian frontier in August last shows that the raiders were Turkish Kurds, who crossed the frontier with the full knowledge of the Turkish military authorities, sacked nine villages and massacred 300 Mussulmans and Christians, including women and children. The Persian government is demanding full satisfaction from Turkey for the outrages.

Enormous Shipments of Wheat.

Duluth, Minn., Sept. 29.—Never before was the movement of wheat so heavy as it is nowadays. Up to Saturday night 3,479,000 bushels had been received, and all of this but 200,000 bushels shipped away. These are the largest receipts ever known at any market in the world. Country elevators report that farmers are selling their grain, satisfied at present prices.

Sixty Per Cent for Creditors.

St. Paul, Minn., Sept. 29.—The first report of the receivers of the Bank of Minnesota, which failed Dec. 22, 1896, with liabilities of \$2,325,522.33, was made Tuesday afternoon. It shows that the creditors of the bank probably will receive about 60 per cent of their claims. The receivers have asked permission to declare a 10 per cent dividend.

USED CHLOROFORM BEFORE HE SHOT

MURDERER BOECKER LAID HIS PLANS CAREFULLY.

Insane For a Long Period—Neighbors Say He Has Been Acting Queerly For Some Time—Henry, the Nine Year Old Boy, Has a Chance of Recovery.

Carroll, Iowa, Sept. 29.—John Boecker, the murderer of his wife and children, still lives, though his recovery is hopeless. The son Henry shows signs of returning strength, and it is believed there is a chance for his recovery. The bodies of the mother and five children have been prepared for burial. The coroner's jury has adjourned till Thursday.

It is known now that Boecker bought a supply of chloroform at Breda last week ostensibly as a remedy for hog cholera. With this he threw the family into their final sleep and was enabled to commit the murder without resistance. Those who know him best say Boecker had been acting strangely for some time, though his mental ailment had not been regarded serious enough to justify taking him to the insane asylum. His determination not to move from the home place which his father decided must be given to his younger brother, is no doubt the cause of the crime. Not long ago he proposed that Henry be sent to Minnesota on a new farm, and protested against leaving the place he had improved. When Henry began plowing a few days ago John took steps to kill himself and family.

HARD TO PUNISH LYNCHERS.

Gov. Mount Has a Difficult Task in Ripley County, Indiana.

Indianapolis, Ind., Sept. 29.—It is believed by many that the state, in undertaking to secure the punishment of the men who participated in the Ripley county lynching, has before it a hopeless task. Gov. Mount appreciates the situation, but he is unwilling to relax his efforts until the attorney-general has demonstrated that it is impossible to secure a jury that will indict the lynchers. Judge New has been asked by the attorney-general to reconvene the grand jury, and local counsel will be employed to assist in procuring evidence. It is probable that state detectives are already circulating among the people of Osgood and the surrounding country. Attorney-General Ketcham has decided not to go into the county this week. If his plans are followed out the state, he believes, will have important testimony to present to the grand jury by next Monday, and at that time he will go into the county and supervise the inquiry.

Germany Will Hold Aloof.

London, Sept. 29.—The Berlin correspondent of the Daily News says: "The statement that the German and Austrian emperors had decided to intervene between the United States and Spain is utterly unfounded. Public opinion here favors Spain, but there is no question of the German cabinet making itself a cat's paw for Spain, while Austrian diplomacy will not allow its foreign policy to be influenced by certain dynastic interests. It is pointed out here that France has by far the greatest financial interest in Spain, and, as a republic, could with more moral weight stand up against the unjust aspirations of another republic. Should the other powers send a protest to Washington, Germany would not be likely to keep aloof, but that is all. Her commercial interests in the United States are too great to be staked for Spanish rule with Cuba."

To Dredge the Yukon for Gold.

St. Paul, Minn., Sept. 29.—A company has been formed here to dig for gold in the bottoms of Alaskan rivers and creeks. The plan is to mine on the Yukon and tributaries by hydraulic power. The promoters are Capt. Ira Short and his son, Capt. Harry C. Short, steamboat pilots, residing ten miles south of St. Paul. Interested with them are two capitalists by the name of Wooley of Grinnell, Iowa. The necessary machinery has already been purchased and is on its way to Seattle, thence to be taken to Alaska early next spring. A boat will be built to convey the machinery up the Yukon to the gold fields.

Murdered by Stage Robbers.

Ukiah, Cal., Sept. 29.—Two masked highwaymen held up the Booneville stage Tuesday afternoon and J. R. Barnett, a passenger, was shot by one of the robbers and instantly killed. The robbers secured three express boxes and disappeared. Barnett was a pioneer resident of this county and a prominent citizen. The sheriff is now trailing the outlaws with bloodhounds.

Gold Found in Arkansas.

Little Rock, Ark., Sept. 29.—Excitement continues at Purdum's springs, in this county, north of Little Rock, over the discovery of gold. Persons from Cincinnati and elsewhere have been buying up land in that vicinity on the strength of developments made in the last few weeks.

Indiana Corn Crop Short.

Indianapolis, Ind., Sept. 29.—The last crop bulletin of the season announces that the Indiana corn crop will fall below that of last year.

CLOSE QUARANTINE BACKED BY GUNS

GREAT YELLOW FEVER SCARE IN SOUTHERN TEXAS.

No Mail to be Received—Passenger Trains Not Allowed to Stop in Brazos County—Galveston's Quarantine Against Houston Has Been Made Absolute.

Dallas, Tex., Sept. 29.—The yellow fever fright has struck the state in earnest. Nearly all of the towns in eastern, central and southern Texas have declared shotgun quarantine against Houston. In Brazos County, County Health Officer Tabor has given out orders to the effect that every road entering the county will be closely guarded and no passenger trains will stop in the county hereafter. There will be no papers or other mails received.

The Houston & Texas Central has practically abandoned its train service out of Houston, only one train a day running. The Missouri, Kansas & Texas Railroad is running trains through Houston to Galveston, the cars being locked through Houston and nobody permitted to enter or leave the train. Galveston's quarantine against Houston is absolute. Nothing but telegrams are permitted to pass between the two places.

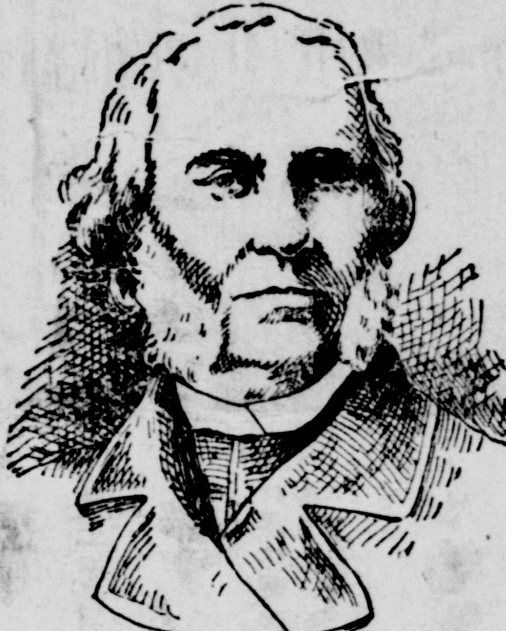

Affairs in New Orleans.

New Orleans, Sept. 29.—The Board of Health for the state of Louisiana announces the status of affairs in New Orleans as regards yellow fever to be as follows: "During the twenty-four hours ending Tuesday, Sept. 28, at 9 p. m., there were: Cases of yellow fever, 19; deaths, 2. Total cases of yellow fever to date, 21."

GEN. NEAL DOW ILL.

The Physicians Have Given Up Hope of His Recovery—Is 93 Years Old.

Portland, Me., Sept. 29.—Gen. Neal Dow, the Maine apostle of temperance, who had more to do with the adoption

NEAL DOW.

of the Maine prohibitory law than any other man, lies at the point of death. The physicians Tuesday gave up all hope of his recovery, and the absent members of the family were hastily summoned. Gen. Dow passed his 93d birthday last March.

To Beautify Mrs. Lincoln's Grave.

Indianapolis, Ind., Sept. 29.—Department Commander Dodge of the Grand Army of Indiana has issued an appeal to the old soldiers of the state for contributions to the "Nancy Hanks Lincoln Memorial Association," the latter having been organized to take charge of the site of Mrs. Lincoln's grave and keep it in repair. Every veteran is asked to contribute something to the work, and 5 and 10-cent contributions will be acceptable. The Sons of Veterans, Woman's Relief Corps and other organizations will make similar appeals to their membership.

Universalists in Convention.

Earlville, Ill., Sept. 29.—The sixtieth annual Illinois Universalist convention opened here to-day and will continue three days. About seventy-five delegates answered the roll call. The thirtieth annual meeting of the Women's Association and the annual meeting of the Y. P. C. U. are being held in connection with the convention. The most important business to come before the convention proper are reports of session committees regarding missions and the election of officers.

William F. Reynolds Dead.

Louisville, Ky., Sept. 29.—William F. Reynolds of Peoria, Ill., field superintendent of the International Sunday-School association, died Tuesday afternoon at Norton infirmary. His remains were sent to Peoria. Mr. Reynolds was 66 years of age and a native of Pennsylvania. He was for twelve years connected with Sunday-school work. He was in good health Sunday night when he addressed a large audience at the First Christian church.

More Trouble in Crete.

Canee, Crete, Sept. 29.—Seven Turkish sailing vessels have attempted to land troops on the Cretan coast, but the undertaking was balked by the admirals of the foreign warships.

Five Killed by Black Damp.

Scranton, Pa., Sept. 29.—Five men met death from "black damp" in the Jermy No. 1 mine near Rendham. The dead are: Isaac Watkins, fire boss; William Tompkins, Joseph Smith, John Gallagher and William Franklin.

THE BASEBALL REPORT.

Standing of the Clubs in the National League.

Baltimore's slim chance for the pennant hangs on the final series, which begins to-day. The champions may still gain the flag for the fourth time by taking every one of the four games (including one postponed) of the Washington series, provided Boston drops one of three to Brooklyn. The standing would then be: Baltimore, won 92, lost 38; Boston, won 93, lost 39. If one game goes wrong in Washington the Orioles will be out of it, unless Boston slips up on two.

Of the series so far Boston has won seven out of nine from Brooklyn, and Baltimore seven out of eight from Washington. In the coming series Hanlon's men will have the advantage of home grounds. But the Senators are running a good race at present, and besides, are bitter rivals of the Maryland city. The possibility of prevention of games by rain may alter these chances, but the Boston-Brooklyn game Saturday is the only one not followed by an open date. No other games will be run in by the managers. Boston has no postponed games, and Baltimore's are with Western clubs.

Standing of the teams:	Won.	Lost.	Per Cent.
Boston	91	38	.705
Baltimore	88	38	.698
New York	81	47	.633
Cincinnati	74	55	.574
Cleveland	69	59	.539
Brooklyn	60	69	.465
Washington	59	69	.461
Pittsburgh	57	71	.445
Chicago	57	72	.442
Philadelphia	54	75	.419
Louisville	51	76	.402
St. Louis	28	100	.219

Only one game was played yesterday.

TALK ABOUT WATER.

National Irrigation Congress in Session at Lincoln, Neb.

Lincoln, Neb., Sept. 29.—The national irrigation convention opened Thursday afternoon with over 100 delegates present. More are expected to-day. Delegates from thirteen states were enrolled Tuesday morning, and while the representation from many was not large, the personnel, in opinion of officers, could be depended upon. Irrigation topics were discussed with animation by such authorities as J. S. Emery, of Kansas; Dr. George E. Young, of Utah; ex-Senator Carey, of Wyoming; E. L. Kellogg, of Colorado, and C. H. Hamlin, of Texas.

The presence of representatives of a number of Western railroad lines was a source of gratification to the officers of the congress, who consider it a good omen when those companies whose roads traverse a district most affected by irrigation show an active interest in the success of the movement.

Massachusetts Democrats Nominated.

Worcester, Mass., Sept. 29.—George Fred Williams of Dedham was, on Tuesday, nominated for governor by the Democratic state convention, on a platform that squarely indorses that adopted by the national convention at Chicago last summer. In a plank of the platform condemnation is passed upon "government by injunction." This plank says: "The country has seen with indignation the logical result of this judicial tyranny, when after an unequal struggle lasting nine weeks, conducted with remarkable self-control and long suffering by thousands of starving miners appealing in a free land for a living wage, men unarmed and in peaceable procession are shot down on the public highway. Let the people remember this massacre at Latimer and resolve that government by injunction shall not be tolerated and that American liberty shall not perish."

Joe Patchen's Good Work.

Terre Haute, Ind., Sept. 29.—While Star Pointer did not lower his own record of 1:59 1/4 for a mile Tuesday, he did make a new record for a quarter and for a half mile, and tied Gentry's record of 2:00 1/2 for the full distance. The record half was the last half of his trial and was covered in :58 1/4, with the third quarter in 0:23, or at the rate of a mile in 1:52. Horsemen say that while they had heard of quarters in 0:23 in private, they had never seen the distance stepped in that time. Joe Patchen lowered his own record from 2:01 1/4 to 2:01 1/4, and both miles were the fastest ever gone over a track in one day.

All Will Have Teams Next Year.

Burlington, Iowa, Sept. 29.—A meeting of the different clubs in the Western Association was held here Tuesday. All the clubs were represented. The matter of franchises for next year was brought up, but as all the old clubs are in favor of remaining in the association the new applications were not considered. Local officials say the outlook for next year is better than it has ever been.

Dry Weather Hurts Iowa.

Des Moines, Iowa, Sept. 29.—The last weekly crop bulletin of the state was issued Tuesday. It says that corn in Iowa is 60 per cent of a crop. The weather is dry and hot again and is delaying fall seeding and plowing and is injuring the pastures.

Havana Spaniards Alarmed.

Key West, Fla., Sept. 29.—Great alarm is felt at Havana over Minister Woodford's notes to Spain, and the Spaniards there are very indignant.

SHOVE IS SET FREE AND LEAVES STATE

MANITOWOC BANKER'S TERM FINISHED.

Sentence Has Been Served, So Doors Were Opened and He Walked Out Into the World Again—Leaves for Minneapolis Where His Family Now Reside.

Oshkosh, Wis., Sept. 29.—Ex-Banker T. C. Shove, of Manitowoc, who was convicted of illegal banking and sentenced to pay a fine of \$4,100 or spend four months in jail here, completed his sentence Tuesday morning, and at once left for Minneapolis, where his family now resides.

METHODISTS ARE EXCITED.

Alleged Abuses in the Church Cause Much Comment.

New York, Sept. 29.—The alleged abuse of ministerial transfers has stirred up the Methodist Episcopal church from center to circumference. Incidentally there comes a question of curtailing the powers of the bishops.

The evils of the present system assumed an aggravated form at the annual meeting of the New York east conference. Three of the leading churches extended "calls" to outsiders. The body of ministers protested and the outsiders did not come. A meeting of metropolitan ministers was held recently to consider the question. No decision was reached.

RUN DOWN BY A TRAIN.

Three Persons Killed in a Railway Crossing Accident.

Zanesville, O., Sept. 29.—Heavy fog obscured the track so that a hand car was struck about three miles out by the inspection train of the Muskingum Valley officers Tuesday, and three men were killed and two injured. They were section men coming into the city. The dead are:

EDWARD DAVIS.
WINFIELD HALSEY.
WILLIAM MENEFFEE.
Injured:
George Halsey.
John Devoe.

Turkish Minister Leaves Hurriedly.

Washington, Sept. 29.—Officials at the state department have been surprised to learn through private sources that Moustapha Bey, the recently recalled Turkish minister, sailed for Constantinople early last week. State department officials deny that anything, but the most cordial relations exist between the representatives of the two countries, but this denial is naturally weakened by the fact that Moustapha Bey in leaving this country omitted all the courtesies usual under such circumstances. His last visit to the state department occurred about the middle of June.

Serious Fire at New Buffalo.

Michigan City, Ind., Sept. 29.—At 2 o'clock Tuesday morning citizens of this place were awakened by the general fire alarm, which proved to be a call of distress from the neighboring town of New Buffalo, where a serious conflagration was raging. A steamer and two hose reels were immediately dispatched. The fire started in the same butcher shop where the last bad fire originated. There is much speculation as to the cause. It broke out about 12:30. The total loss will reach about \$16,000, with only \$200 of insurance carried by William Dauphin on his saloon fixtures.

Indians Agree to Changes.

Muskogee, I. T., Sept. 29.—The Daws and Creek commissions have concluded a treaty whereby the Creek Indians agree to allotment and a change in the form of their government. Town sites are to be laid off where towns now exist, and residents can secure title to their town property by the payment of 50 per cent of an assessed valuation of their lots, exclusive of improvements. Provision is made for the setting aside of lands for school and church purposes. No recognition is given to either coal, coal oil, or grazing or mineral leases of any kind.

Schools Will Not Open Now.

New Orleans, La., Sept. 29.—The school board last night decided on an indefinite postponement of the opening of the schools on account of the yellow fever epidemic. Ten days' notice will be given, and those teachers who are out of the city are not asked to return until the fever has been stamped out. Every private school in the city and most of those in the state have postponed their openings.

Shortage in Brooklyn's Accounts.

New York, Sept. 29.—Examination of the financial department of Brooklyn, which will be consolidated with the Greater New York at the coming elections, reveals a shortage of \$1,600,000 to \$2,000,000. All this is for unpaid arrear taxes. Unless special legislation at Albany is obtained to prevent it, New York will be saddled with this debt.

Die on Their Wedding Tour.

Denver, Sept. 29.—The identification of a portion of a half-burned railway pass leaves no doubt that Elmer E. Black, a Pennsylvania railroad engineer, and his wife were victims of the railroad wreck at Newcastle, Col., Sept. 9. They were on their wedding tour.

LET COMPANY PUT IN SPUR AND SEWER

COUNCIL TOOK ACTION LAST NIGHT.

Depot Work Can Now Be Rushed—O. F. Nowlan Gets the Second Ward School Contract—License Election Returns are Canvassed—Other Work of City Fathers.

At last night's meeting the council: Canvassed the returns of the special license election.

Voted to contract with O. F. Nowlan for the addition to the second ward school.

Granted the Chicago & Northwestern company permission to lay a spur track and put in a sewer.

President of the Council S. C. Burnham was in the chair, and only Aldermen Kothman and McKey were absent. The returns of the special election were referred to the judiciary committee, and Chairman McLean made the following report:

The judiciary committee reports to the mayor and common council that they have examined the returns of the election held to determine the amount to be paid the next ensuing three years, and that the votes cast at such election are as follows:

For the sum of \$500.....\$38

For the sum of \$350.....\$43

For the sum of \$300.....\$81

On motion of Alderman McLean the license fee was fixed at \$500 per year, for the ensuing three years.

Noted From School Board.

Clerk Badger read the following communication which was referred to the committee on schools:

JANEVILLE, Wis., Sept. 28, 1897.

TO THE HON. THE MAYOR AND COMMON COUNCIL OF THE CITY OF JANEVILLE:

GENTLEMEN: Pursuant to the direction of the board of education I herewith report to you that the board has prepared plans and specifications for an addition to the Adams school building in said city which are herewith submitted and has advertised for bids for the construction of the same and that the lowest bid received was that of O. F. Nowlan, being two thousand, one hundred and sixty-eight dollars, which bid the board accepted, subject to the approval of your honorable body.

The board of education therefore recommends that a contract be made with said O. F. Nowlan to construct said addition according to said plans and specifications for \$2,168 and that the mayor be authorized to sign the same for the city.

And as time is precious we would respectfully request that you take action in the matter as soon as possible.

Respectfully submitted,

JOHN CUNNINGHAM, Clerk.

To Build a Sewer.

Ald. Millmore, from the finance committee, reported favorably on the bills of the inspectors and clerks of the recent election. Report adopted.

Alderman Efield, from the committee on schools moved that the report be accepted and placed on file and that a contract be entered into with O. F. Nowlan. Adopted.

By Ald. Millmore—An order granting Frank Moses the use of a portion of high street for building material pending the construction of a building. Adopted.

By Ald. McLean—Granting the Chicago & Northwestern Railroad company permission to lay a sewer from the passenger depot along Wall street to High street and along High street to connect with the sewer running to Rock river and Pleasant street; or should the company so elect, from the depot north along the right of way of said company to Rock river; also permission to lay a temporary switch track across Wall street south of and adjoining the vacated portion of said street. Adopted.

Ordinance Is Passed.

Alderman McLean introduced an ordinance granting to the Chicago & Northwestern Railway company the right to construct a spur track across River street and into and upon and along School street, between said River street and Rock river in the city of Janesville.

City Attorney McElroy stated that an order had been passed at a recent meeting of the council granting the railway company permission to do the work covered by the ordinance, but the company thought an ordinance should be introduced.

The ordinance was given its first and second reading, the rules were suspended and it was put upon its passage and unanimously adopted.

The council then adjourned.

JUNCTION MAN KILLED

Hansen Pierce Dies As Result of Railway Accident At Fond du Lac

Milton Junction, Sept. 29.—The remains of Hansen Pierce, who died from the effects of having both feet cut off by the cars, at Fond du Lac, were brought to this place Saturday night, and the funeral was held Sunday afternoon at the Seventh Day Baptist church, Rev. Mr. Burdick officiating in the absence of Pastor Stephens. Mr. Pierce used to reside here and has a father and brothers living near here. He leaves a wife and children. Mr. and Mrs. Lafayette Coon, Mrs. Frank Marriott, Maud Walrath, Rev. George Burdick and E. D. Coon went to Utica, Monday to attend the funeral of Ashur Knapp of that place. Deacon George Babcock, wife and daughter of Albion, stopped in town Monday, on their way home from an extended visit in Rhode Island and Iowa. W. G. Kildow and wife, of Janesville, made a short call in Milton Junction Friday night. Rev. Stephens returned from conference Tuesday morning. He has been returned to the church

friends here. Otas Clark and wife returned from a month's visit in Michigan Sunday night. Herbert Coon of the "Fair," Janesville, was seen on streets a couple of days the past week. At present writing it is not known who will be the next pastor of the M. E. church here. Mrs. Wadsworth, of Waukesha, has been spending a few days with her daughter, Mrs. Will Sowle. Richard Dowsett still remains on the sick list. The Junior society of the S. D. B. church are to give an entertainment next Saturday night.

CAME BACK FROM KLONDIKE

Captain Charles Knight Returns to Avoid Starvation He Says.

Beloit, Wis., Sept. 28.—Captain Charles Knight of Circle City, Alaska, a former resident of Burlington, who has acquaintances in Beloit, is visiting in this city. He has spent two summers and one winter in Alaska and has two mining claims near Circle City. He is an acquaintance of Joseph Christ, a Beloit boy, whose letters from the land of gold and cold have attracted much attention.

Captain Knight says he came away from Alaska to escape the possibility of starvation, for many will surely perish before navigation opens. He is reluctant in speaking of his own success but does say he has done well and will return to Circle City in the spring. He confirms the report told of the quantities of gold in Klondike and the trials that must be undergone to secure it.

THE VALUATION OF THE STATE

Figures Are Made Out, But Do Not Agree with Assessments.

The total assessed valuation of all property in this state, as fixed by the state board of equalization, is just \$600,000,000. This is \$29,735,508 less than the total of the various valuations fixed by the local assessors in the different counties. The value of the real estate of the state is fixed at \$175,631,287, and the personal property at \$124,368,713. The total assessed valuation is the same as that of last year. Milwaukee county, of course, has the largest assessed valuation, \$133,394,904 and Burnett county has the smallest, \$673,860. The assessed valuation of all bank stock in the state is \$7,714,279. The total number of horses in the state is 168,676 of which Dane county has the most, 20,434.

TO OPEN A GRAIN MARKET

Midwinter Fair Committee Talk Over the Plans Last Night.

Members of the midwinter fair committee talked over the plans of establishing a grain market in this city, at a meeting held at C. S. and E. W. Putnam's store last night. A committee consisting of George M. McKey, W. P. Sayles, W. H. Greenman, P. J. Mount and Fred L. Clemons was appointed to call upon the merchants and get them interested in the plan, which contemplates the hiring of a man, on salary, to buy grain at the highest market rate. It is a well known fact that many farmers have ceased to do their trading in Janesville, claiming that they can get better prices for their produce at other points.

TO PAVE BELOIT STREETS

Work Will Be Extended If Railway Company Does Its Share.

Beloit, Wis., Sept. 29.—[Special]—A movement is on foot to extend the brick paving on the west side two blocks farther. It all depends on the Northwestern Railway company paying their share. In all probability next season will see Broad and School streets paved with the same material. The city council has authorized the purchase of a stone crusher and hereafter will provide its own crushed stone for its streets.

TOBACCO CROP PROMISING

Janesville Firm Finds Good Leaf at Milton Warehouse

Milton, Wis., Sept. 29.—J. L. and M. F. Greene, had men at work yesterday at their warehouse in this village, sampling a part of their '96 packing of tobacco. The samples drawn show the crop to be in a satisfactory condition and entirely free from damage. The leaf has dried off nicely since passing through the sweating process, is of a good, even color and has the silky, glossy finish so much desired by manufacturers and consumers.

GOSSIP FROM THE STATE

JAMES M. ASHBY of Madison, died last night. For twenty-six years he had been janitor of ladies' hall of the university.

THE Business Men's association of Green Bay, is making the attempt to secure the location of the Lemars Shoe Manufacturing company of Lemars, Ia., at that city.

AUGUST PEARSON of Frankville, has been taken to the Northern hospital for a disease at Oshkosh. He attempted to commit suicide while at Racine by pounding his head with a rock and wading into the lake.

THE members of the Methodist church of Racine, are said to be in an ill humor because the Rev. J. S. Lean was not returned to the church. It was understood that he would come back and the congregation was very desirous that he should be returned.

Mrs. FANNIE WHEELER of Neenah, has commenced suit against the Chicago and Northwestern road for injuries sustained in the wreck of the Christian Endeavor train near Chicago. Mrs. Wheeler is in bed yet from the effects of her wounds. She asks for \$25,000 damages.

A LINE CITY MAN MAY GO TO TURKEY

ASSISTANT NEEDED IN THE EUPHRATES COLLEGE.

If the Money is Provided For Ellsworth Huntington Agrees to Undertake the Work—The President of the Turkish Institution of Learning an Alumnus of Beloit.

Beloit, Wis., Sept. 28.—President Eaton made a proposal to the college in a body at the chapel last evening which today has been the subject of much interesting discussion. It was to the effect that Beloit college send a man to Turkey.

Beloit people are well acquainted with an alumnus of the college, the Rev. C. E. Gates, who for many years has been engaged in educational work in Turkey. He has been for sometime president of Euphrates college, and during the Armenian massacres passed through many privations and dangerous experiences.

President Gates is in great need of an assistant in the college and not long ago a letter came to President Eaton, asking if Beloit college would not send somebody. A teacher would receive \$400 a year and traveling expenses, of which a part would be paid by other hands leaving a little over \$300 a year to come from Beloit. Ellsworth Huntington, of Boston, Mass., college class of '97 has volunteered to go on this commission and is awaiting President Eaton's message that the money will be provided. Mr. Huntington was to have entered Boston Institute of Technology this fall. If the report of the canvassers is favorable, President Eaton will telegraph him that Beloit college will send him to Turkey.

Representatives in each class have been taking pledges today and it is quite generally believed that the undertaking will prove successful.

LOCAL TRAINMEN TESTIFY

Tell Their Story at the Pierce Inquest at Fond du Lac.

Janesville railroad men testified at the inquest held over the remains of Hanson Pierce at Fond du Lac Monday afternoon. Pierce is the Milton man who was killed by the cars near Fond du Lac and who was buried Sunday at Milton. Conductor Dulan, of this city, was in charge of the train which brought Pierce to Fond du Lac. The witness stated that train 558 which was probably the one that ran over Pierce had a full crew when his train passed them at Juneau on Friday morning. H. L. Blake, brakeman on the same train, and the one who assisted in putting him in the car, gave a story in substance the same as Mr. Dulan's. Hanson Pierce was at one time in the employ of the Northwestern, and worked under Conductors Frank Brown and Neil Mahoney. Both of these gentlemen state that he was a faithful young man and a hard worker.

THEY PLAYED A GOOD GAME

Janesville Men Helped the Oshkosh Team in a Hot Contest.

Crall, Morrissey, and Blakely, of this city, played good ball with the Oshkosh team Sunday in a game with the Kaukauna team but even this did not keep the Oshkosh team from defeat. The visiting team found Blakely for ten hits with a total of twelve bases. Morrissey made several good hits into the field that counted at the right time. The Northwestern says: Crall was on second in the third with two gone. A long hit was muffed in the field, and Crall could have scored had he run. The hitting of Crall was a feature of the game. The local fans had begun to think that the big right fielder did not know what a hit was, but in Sunday's game he found the ball for two singles and a double. His hitting scored four men.

J. M. ASHBY IS CALLED HOME

Janitor of the Ladies' Hall At Madison Is No More.

James M. Ashby, who, for twenty-six years, has filled the position of janitor of ladies' hall at the state university and who was well known by the Janesville students at the hall, is dead. On September 10, Mr. Ashby had the misfortune to fall from a chair, breaking his right hip, since which time until his death he was confined to his bed. Until last Friday night he was conscious. At that time a blood vessel in his brain broke, due to his fall, it is supposed, which ultimately caused his death. He was unconscious from Friday night until his death. He leaves also an aged sister in the east and a brother near Janesville.

RUSK LYCEUM PLANS MADE

Society Will Meet in the New High School This Winter.

Members of the Rusk Lyceum are cutting down expenses these days. They have given up the Caledonian rooms as a meeting place and will in the future utilize a portion of the High school building, the rent being donated. This debating society is composed mostly of pupils of the high school and will throughout the winter meet each Wednesday evening in the week their first regular meeting to take place this evening.

MADE HATS OF FANCY PAPER

Thirty-Five Ladies Enjoyed Mrs. McKey's Hospitality Last Night.

Thirty-five ladies were the guests of Mrs. George M. McKey last evening at her Park Place home, the event being in honor of Mrs. Harry Smith of Whitewater. The invitations asked that each lady bring a hat pin and a pair of scissors. The guests found awaiting them an abundance of colored paper to be made into hats. Mrs. H. S. Sloan and Mrs. A. L. Kavelege were the aided the prizes.

SOFT COAL IN PLENTY NOW

Famine Is Arrested—Street Car Company Used Wood.

The arrival of soft coal in carload lots in the city yesterday, averted what promised to be a soft coal famine. Yesterday morning there was not enough soft coal in the city to fill a good sized freight car, but later in the day it began to arrive from Chicago, and the situation for the time being has been relieved. During the past two days they have been burning wood in order to keep the street cars moving.

The Spartan Virtue of Fortitude

Must be possessed in no ordinary degree by those who bear the pangs of rheumatism without complaint. We have never heard of such an individual. But why not, ere the life long martyrdom begins, extinguish the germ of this atrocious malady with Hostetter's Stomach Bitters, the efficacy of which as a preventive of the disease, as well as a means of relieving it, is well established and amply attested, during the last forty-five years, by a professional signature. It expurgates from the blood those acid principles which beget the pain and inflammation characteristic of this complaint, which, if should be recollected is always liable to terminate life suddenly when it attacks a vital part. The Bitters also expels the virus of malaria from the system, remedies dyspepsia, kidney complaint, constipation and biliousness, quiets the nerves, and invigorates the whole physical organism.

THE OVERFLOW OF LOCAL NEWS.

A Modern Samson.
Preekoshus—Papa must be awful strong, mamma.
Mamma—What makes you think so, Pree?
Preekoshus—I heard him tell Mr. Jackson this morning that he stood Pat on his hand four times last night and cleaned up over a hundred.—L. A. W. Bulletin.

Riches Have Wings.
"Popcorn balls! Nice an' sweet!" announced the purveyor of those delicacies. "Two cents apiece. Have one, mister?"
"Wa-l, I don't know," cautiously replied Jason Whetlock. "I'd like first-rate to have one, but a nickel goes so dretful fast after you once break it!"—N. Y. Journal.

Not Extensive, But Choice.
"Her father is not what you would call a well-read man," said one long-haired poet to another.
"No. His library consists of only two books; but they suffice."
"What are they?"
"Bankbook and chequebook."—Tit-Bits.

Naturally.
"There seems to be great objection raised to an American heiress marrying a foreign count."
"Yes, there is, and by two people."
"Which?"
"The girl who didn't catch a count and the man who didn't catch an heiress."—Yellow Book.

A Matter of Money.
Jones—You seem to have the blues. What is the matter? Is it a love or a business complication that is bothering you?
Smith—It is business trouble. A wealthy young lady to whom I was engaged has thrown me overboard.—Tammany Times.

The Silver Lining.
"This is the sixth consecutive day we've had chicken," said Mrs. Gotham while in the country.
"Don't complain," replied her husband; "just think that every day there's one less cackler to wake us up in the morning at sunrise."—Yonkers Statesman.

Talent Unrecognized.
Mr. Cawker—Nonsense! She can't be a great singer.
Mrs. Cawker—What makes you say that, Mr. Cawker?
Mr. Cawker—Because she has never written any testimonials for Gubbins' Nerve Food or Big Pills for Small People.—Louisville Courier Journal.

Blood on the Moon.
Wife—My dear, that horrid man next door has killed the dog.
Husband—Well, never mind, my dear; I'll get you another one some time.
Wife—But it wasn't my Fido that he killed; it was your hunting dog.
Husband (wildly)—Where's my gun?
—N. Y. Weekly.

A Serious Complaint.
Bing—Yes; that's old Spriggins. Half-a-dozen doctors have given him up at various times during his life.
Wing—What was the trouble with him?
Bing—He wouldn't pay his bills.—Puck.

The Modern Novel.
"Has that book any good characters?" asked the literary critic.
"Well," replied the casual reader, "a few of the people had good characters in the first chapter. But they're all hopelessly lost before the middle of the story."—Washington Star.

The Real Martyr.
Some men strive for fame,
And some men toil for wealth;
But, oh, his lot is hard who's got

He—Is that the reason you insisted upon my having my life insured?—N. Y. World.

A Song of Life.
While the early bird enjoys it,
For the worm it isn't fun;
Some of us are up and doing—
Others, up and done.—Detroit Journal.

Logical Explanation.
She—Why do they call the man who stands up with the groom the best man, George?
He—I suppose because there's no chance of his being henpecked after the honeymoon has waned.—Yonkers Statesman.

Good at Keeping Things.
Mamie—Trust her? You surely don't think she could keep your secret.
Josie—Well, I've trusted her with other things and she kept them.—Town Topics.

Elgin butter was quoted today at 22 cents. It has advanced two cents during the week, and 5½ cents in two

weeks. At this time a year ago the price was 15½ cents.

At Our Boarding House.
"Here is a new conundrum," said the cheerful boarder; "I made it myself. What is the difference between me and a Klondike miner? Can you guess, Mrs. Hashleigh?"
"No, I never liked conundrums," snapped the landlady.
"All give it up?"
"There was no response."
"Because," said the cheerful boarder, "one stakes the claim and the other claims the steak!"
And he helped himself to the last bit of sirlion on the platter.—Cleveland Plain Dealer.

Why He Was Sad.
"Before you inherited all that money from your rich uncle you were one of the jolliest fellows ever I met, but now you seem to have blues all the time," remarked Gus Smythe to Gilhooly.
"Isn't it enough to make a man feel down in the month when he has to spend his own money?" retorted Gilhooly.—N. Y. World.

No Show on Earth.
"I wonder if the Irish will ever get home rule?" asked Mrs. Yerger, who was reading the morning paper.
"I don't think the outlook is very encouraging. Married men have been trying to get it for several thousand years and they haven't got it yet," replied her husband, who knew whereof he spoke.—Tammany Times.

Medical Conversation.
"I was called to see Mrs. Crankyspell this morning, but I couldn't discover that there was anything the matter with her. She is in perfect health."
"I hope you didn't tell her so."
"Of course not."
"That's right. We would starve to death if it wasn't for the healthy patients."—Tammany Times.

But She Would, Probably.
Mrs. Threefingers—Now, look here, sir, if you come home in this condition many more times I shall lose my temper.
Col. Threefingers—Well (hic), m'dear, I wouldn't (hic) mind that, if (hic) you never found (hic) it again.—Louisville Courier-Journal.

Somewhat Above.
Dinsmore—Do you know Trotter, Cawker?
Cawker—Yes, I know him. Trotter is a fair average man.
"But he is over six feet tall."
"What of that?"
"That's above the average."—Louisville Courier-Journal.

It Wasn't Plate.
She was admiring the silver service.
"Family plate, I suppose," she suggested.
Mrs. Parvendra drew herself up haughtily.
"Plate!" she exclaimed. "Plate! There isn't a bit of that plate. It's solid—every piece of it."—Chicago Post.

No Club Rates.
"Jenkins' wife is very strict with him."
"In what way?"
"She charges him a nickel every time he uses an oath, and she won't let him have six for a quarter."—Chicago Record.

HOT PRAIRIE FIRE IN TOWN OF AVON

TWO HUNDRED FARMERS FIGHT FLAMES.

Fifteen Teams Kept Busy Plowing Furrows, While Others With Wet Blankets and Pails of Water Were on Duty Six Hours—Watch Kept All Night.

Two hundred farmers fought leaping flames on the J. W. Burgess' and George Stokes' farms in the town of Avon, for six hours yesterday, that for the time being, threatened property valued at thousands of dollars. Aside from the destroying of many fences and one hundred and fifty acres of pasture grass the damage was nominal.

Willie Reeco, son of Mr. and Mrs. Peter R. Reeco of the town of Avon, carelessly threw a lighted match in a bunch of dry grass and caused the conflagration.

Reeco, who is a boy of but twenty years, was at work yesterday morning at 11:30 o'clock burning a quantity of brush and as the noon hour approached he let the fire die out so that he could go to his dinner. While on the way to the house he was obliged to cross a dry and badly parched field of grass. While crossing he threw a lighted match into the tall stubble. In a moment a big patch was in flames, and the fire swept along the ground with great rapidity. Reeco was obliged to flee for his life.

Farmers Rally To Fight It.

The flames which leaped twenty feet in the air attracted attention for miles about and in a short time two hundred willing hands were on the Burgess and Stokes farms ready to give battle to the flames. Fifteen teams were pressed into service hauling as many plows and while men fought the flames with wet blankets and buckets of water, these fifteen teams were plowing deep furrows about the barns and dwellings.

Later last evening the flames were under control, having been checked within ten feet of two hundred tons of hay. Men were then put on the watch through the night, and this morning the ground was thoroughly gone over, to prevent any starting up of the flames. Mr. Burgess and Mr. Stokes say the damage is confined to the burned fences and ruined pastures, and they think they were very fortunate. Mr. Reeco says that in the future he will be more careful as to where he throws lighted matches.

THE OLD WAY

Of Treating Dyspepsia and Indigestion by Dieting a Barbarous and Useless One.

We say the old way, but really it is a very common one at present time and many dyspeptics and physicians as well consider the first step to take in attempting to cure indigestion is to diet, either by selecting certain foods and rejecting others or to greatly diminish the quantity usually taken, in other words the starvation plan is by many supposed to be the first essential.

The almost certain failure of the starvation cure for dyspepsia has been proven time and again, but still the moment Dyspepsia makes its appearance a course of dieting is at once advised.

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a man suffering from Dyspepsia, because Indigestion itself starves every organ and every nerve and every fibre in the body.

What the Dyspeptic wants is abundant nutrition, which means plenty of good, wholesome, well-cooked food and something to assist the weak stomach to digest it. This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted and this is the method by which they cure the worst cases of dyspepsia. In other words the patient eats plenty of wholesome food and Stuart's Dyspepsia Tablets digest it for him. In this way the system is nourished and the overworked stomach rested, because the tablets will digest the food whether the stomach works or not. One of these tablets will digest 3,000 grains of meat or eggs.

Your druggist will tell you that Stuart's Dyspepsia Tablets is the purest and safest remedy sold for stomach troubles and every trial makes one more friend for this excellent preparation. Sold at 50cts. for full sized package at all drug stores.

What Kind of an Underwaist to Put On An Active Boy is a Serious Problem...

The "Samson Suspender Waist," Is the Solution....

It is the result of much study and an experiment. Physicians and mothers who give serious thought to every detail of children's clothing will appreciate the adjustable waist of the SAMSON. It does not bind the waist but rather clings to it, the weight of the clothing being borne by the shoulders. Every part which is liable to strain is elastic, and responds to each motion of the body, and the buttons in consequence of the elastic construction cannot be pulled off. Its advantages over the fabric waist are obvious. The SAMSON need not be washed; it is not soon outgrown; is stronger in every part than any other Underwaist. It may be worn with either shirt waist or blouse as the buttons are properly placed for the drawers or trousers and will therefore fit the button holes of the shirt waist. Eyelets are placed on each side for the stocking supporters. In fact, every contingency has been provided for and every feature studied from a hygienic and scientific standpoint. Made in sizes 3 to 10 years. Be sure and call on us and see this novel little arrangement.

OPDYKE'S ODD TALE AT MURDER TRIAL

NO ONE HERE KNEW THE
WITNESS.

He is Now a Member of the American Volunteers, The Off Shoot of the Salvation Army—What the Newspapers Say of the Story Told in Court.

Nobody in Janesville seems to know Armadale Opdyke, the man who testified to seeing Mrs. Luetgert "near Janesville" on June 10.

Armadale Opdyke, in the uniform of an American volunteer, said he saw Mrs. Luetgert, or a woman who looked like her, June 10. He was a positive witness, and he was not affected by the cross-examination. He said he was a fruit peddler, and was driving through Wisconsin. The evening of June 10 he camped near Janesville, Wis. At dusk, he said, two women approached him and he gave them some hay.

He was not permitted to relate any of the conversation, but it was inferred from his story they wanted the hay on which to sleep. He says they slept on the hay not far from his wagon and went on in the morning. One of the women he said was like Mrs. Luetgert and the other was smaller. He unhesitatingly identified her photographs as those of the two strange women he saw in Wisconsin.

Says He Saw Them
Q. Describe to the jury what you saw there. A. They both had shawls on their heads; one weighed about 120 or 125 pounds and the other about 100. They came down where I was and asked me how far it was to Elgin; I told them about twenty or thirty miles, something about that. I talked to them—

Mr. Deneen—I will object to the conversation.

Mr. Phalen—Look at this picture and see if you see in that picture any person you have ever seen before. A. Yes sir. The one standing up.

Q. Where did you see the one standing up? A. Forty-five miles from Chicago.

Q. Is the one standing up in the picture one of the women you speak of? A. That is the one I saw; yes sir.

Are you sure of it. A. I am sure of it.

The cross-examination of Opdyke only strengthened his identification of the photograph. Mr. Deneen then showed him the photograph, which, he said, is the best likeness of Mrs. Luetgert, and Opdyke immediately identified it as that of the woman he saw near Janesville.

Camped in a Wagon.

He camped out, sleeping in his wagon. In a small grove near him he saw two women. They were lying on the ground, and said they were going to remain there during the night. Opdyke said he carried an armful of hay from his wagon to the women, and they made a bed of it. The witness positively and unconditionally identified a photograph of Mrs. Luetgert as one of the women he saw in the woods. Opdyke said he could not be mistaken. He was absolutely sure that one of the women was Mrs. Luetgert. On cross-examination, he acknowledged that his identification was based purely upon the resemblance of Mrs. Luetgert's picture to one of the women.

Julian Hawthorne's View

Julian Hawthorne, the novelist, who is reporting the trial for the New York Journal, refers to Opdyke as follows:

"When Armadale Opdyke came to the chair we had a good time. He is the picturesque figure of the trial thus far. He is a wandering fruit vendor and camper-out on country roads; ready and fluent, smart and imaginative; but not quite up to the curves of State Attorney Deneen. He told us that he had been belated on the highway forty-five miles out of Chicago, and had made his bed by the roadside. His solitude, however, was agreeably disturbed by the advent of two ladies, one weighing 125 pounds the other 100 pounds. They both had shawls drawn over their heads and the garments of both were dark—whether dark brown or black he declined to say. So Mr. Phalen passed up his tynotype, which Armadale promptly and positively identified: 'That's the woman—yes sir.'"

Was a Wanderer.

Mr. Deneen rose. He discovered that Armadale's places of residence had been many, and that none of them had succeeded in retaining him long. Had he ever seen the lady's picture in the newspaper? He had; but what else the paper contained he knew not; nor was he cognizant of the day, the week, or the month when it was brought to his attention. . . . How long had he seen her on this occasion? He had seen her all night. That is, not quite all night; he was sleeping some of the time. Was it a moonlight night? Well, Mr. Opdyke could not say; unlike all other roadside peddlers he had no eye for the moon; but he thought there were stars. What day of the month was this? It was the 9th of June. Warm right? No, cold. Snow? No, no snow. And the ladies lay down by the road and slept, did they? Yes, that's what they done. "How near were you to them when they slept?" the State's Attorney had the curiosity to inquire. Armadale repelled the insinuation by declaring that the distance which separated them was not less than 150 feet. . . . By how many a gypsy campfire will be told the story of how he testified in the Luetgert trial!

WORK AT THE DEPOT SITE

Raise Old Track and Lay a Spur at Once.

One thousand feet of steel track that now faces the Northwestern passenger depot lying between Wall and Academy streets is raised to a tenth of an inch and straightened. Assistant Engineer Heck today completed the surveying of the track.

A temporary spur track five hundred feet in length is soon to be laid on Wall street on which will be switched all cars containing building material for the new depot. It is doubtful now if Mr. Fish will be able to place the present structure on Academy street so as to allow the excavation for the new depot to commence tomorrow.

Important Notice.

We beg to inform our patrons that we have made arrangements which will enable us to show the latest designs in fall and winter millinery, as early as Wednesday, September 29. As soon as we receive any new designs we will put them on exhibition, and will not wait until the middle of October before showing them. We will therefore dispense with the antiquated custom of a formal opening. We invite all to pay us a visit, and can assure them that by this arrangement we will be able to furnish them with the very latest and best designs. M. A. Morrissey & Co., on the Bridge

HALL FACTORY SOLD TO MADISON MAN

DEAL HAS BEEN CLOSED AND
PAPERS DRAWN.

Capital Will be Increased to \$50,000 and a Force of Men Will Go to Work Monday Morning—N. O. Stark the Purchaser—O. W. Bemis To Be Superintendent.

Stockholders and directors of the Hall Furniture company will meet in special session tomorrow morning, to take under consideration the sale of the Spring Brook factory to N. O. Stark, of Madison.

The price is \$30,000, which includes the building, land, and good will of the concern as well as the raw material now on hand.

In case the deal is closed it will mean much to Janesville, for the company will reorganize as the Stark Manufacturing company with a capital stock of \$50,000.

The factory will start up next week with a force of fifteen hands which later on will be increased to a steady working force of seventy-five hands.

Mr. Stark arrived in town Monday and at once sought an interview with John Barless, who now holds the controlling interest in the company. Later Mr. Stark made a thorough and careful inspection of the factory. He was well satisfied with all and said that he would send for his Madison attorney so that legal steps toward closing the deal could be made at once.

Deal Is Closed.

A message was then forwarded to the Capital City and on yesterday's afternoon train arrived at Janesville. Attorney General J. L. Erdall. The price was then agreed on and the deal was closed with the exception of signing the papers. Last evening Attorney Erdall and Mr. Stark returned home and a telegram received this morning by Mr. Barless stated that both gentlemen would be here in the morning and close the deal. Under the new order of things Orrin W. Bemis will act as bookkeeper and general superintendent, while Charles Barnard will have charge of mechanical work.

Mr. Stark is one of Madison's leading business men. For the past fifteen years he has held the position of superintendent of the Fuller & Johnson works.

The Hall Furniture factory was erected in the Spring Brook addition in 1892 at a cost of \$40,000 for the building and machinery alone. Of late years the factory has not been running.

SUES BELOIT MAN FOR \$50,000

Breach of Promise Case Now in the Chicago Court.

Agnes Claffy has gone to Chicago from Beloit, to sue John Cline for breach of promise of marriage. Her suit was begun yesterday in the superior court, and she puts the amount of damages she wants at \$50,000.

The plaintiff says she first became engaged to Cline at Beloit about September 1, 1896. He promised to marry her, she says, September, 15, 1896 but when the appointed time came he did not keep his word.

Another wedding day was fixed in March, but the wedding did not take place.

Cline left Beloit a short time ago, and went to Chicago, where the plaintiff says he has property. She followed him to that city, and began the suit.

APPLES COME HIGH THIS YEAR

Price Will Be High, Owing to a Small Crop.

Apples will be expensive this season. Michigan usually supplies early market apples, but this year's crop is very poor. Illinois is furnishing fruit, thus far, which is very fair. Michigan or New York have but little winter fruit. They usually supply the winter market. Yesterday, in Chicago, a large sale, consisting of many cars of Missouri apples, was made to the Creek, Mich., cold storage, at \$2.15 F. O. B. The freight is 50 cents a barrel, making the price \$2.65, before going into cold storage. They were a Ben Davis variety. Prices will be well advanced this winter, consequently apples are being sold by local dealers at from \$2.75 to \$4, according to variety.

A Monumental Wonder.

Hutchins & Bunde of Rockford, Ill. have just completed a monument in the Oak Hill cemetery, for William Eller, deceased. These gentlemen are the sole inventors of the process of cutting granite with sand blast, a process used in lettering this monument. By this device any style of letter can be cut, large or small, sunk or raised letters, and the work is done with one-fourth the expense of doing such work. They are equipped also with pneumatic tools. Hence this firm is better equipped for cemetery work than any other plant in the world. They claim the Eller monument is better lettered than any other monument in the state of Wisconsin, it being the only one as yet lettered by this process.

Splendid Fruit.

The car of fruit we secured this morning, is of the finest quality and best assortment brought into the city this season. We take no back seat for anybody. Our buyer personally selected every article, and paid special attention to quality. The fruit supply this season isn't up to last year's stock, and it is a matter of considerable difficulty to secure strictly first class goods. Peaches, pears, grapes, plums, apples, and all the seasonable fruits in this carload, are of extra worth. Sanborn & Co.

HELEN : SERVATIUS,

A SICK COW KILLED BY VETERINARIANS

BEAST WAS SUFFERING WITH
CONSUMPTION.

G. R. Boss' Family Bovine Slaughtered On the Order of State Veterinarian Clute, Who Was Summoned by Dr. Roberts—Another Suspected Herd Found Healthy.

Cases of tuberculosis, or consumption, are thought to have been discovered in herds of Rock county cattle and is causing the farmers much trouble and anxiety. At the recommendation of Dr. E. D. Roberts State Veterinarian H. P. Clute of Marinette made a hurried trip to this city and thence to the Milton home of George R. Boss, where he found the family cow suffering from this dangerous disease. She was immediately slaughtered.

Eighteen head of cattle on the William McEwan farm seven miles north of this city were subject to a severe test yesterday under the direction of Assistant State Veterinarian W. G. Clarke of Marinette. Each cow was injected with tuberculin and this morning there being no reaction the herd was pronounced healthy much to the satisfaction of Mr. McEwan.

Mr. McEwan called Dr. R. L. Brown, when his cattle became sick, and Dr. Brown decided to notify the state veterinarian.

Not a Common Disease

Tuberculosis is by no means a common disease among the cattle of this section. Several years ago it got a foothold in this section of the county, causing a loss of several hundred dollars before it was checked.

The disease is a form of consumption, being a constitutional disease, characterized by the production of tubercles in the internal organs, and especially in the lungs, where it constitutes the most common variety of pulmonary consumption. Its symptoms are many and plain and are similar in many respects to those of a person having consumption.

The affected bovine shows a weakness throughout its body brought on by a loss of appetite which is followed by severe coughing spells which result in weak lungs. There being but little help for the animal affected with the disease the beast is usually killed and buried as soon as possible to prevent the spreading of the germs.

To The Public:

Wheelock's Crockery Store

has been established at No. 8, South Main St., for more than forty years. During that time the people of Janesville and vicinity have patronized it liberally. The business will be carried on in the future, under the management of the undersigned, the youngest son of the late W. G. Wheelock. I hope to conduct the business in such a manner, so as to merit a continuance of the same liberal patronage, which it has enjoyed in the past.

Respectfully,

WHEA MOTHER GETS TEA.

When on a Sunday afternoon
The children are away
And wife and I at home alone,
She'll look at me and say:
"We'll let the servants all go out.
When only you and I
Are left, just as I used to do,
I'll get your Sunday tea."
And so we watch them as they go,
The maids in ribbons gay,
Butler and cook and all the rest
Depart in brave array,
And when the last has disappeared
I rub my hands in glee
And say, "Now, Mary, for old times!"
And "mother" gets the tea
Stand back, each Jane and Bridget,
And hide your blushing face!
If you could only cook like this,
You'd never lose a place!"
Such oysters and such omelets,
Chicken and toast—oh, me,
How happy 'twas when, long ago,
She always got the tea!
Those good old days, when we were poor
And boys and girls were small;
Since then the Lord has prospered us,
While they've grown strong and tall
And think they ought to have "more
style."
Perhaps such things must be,
But still I'm longing for the days
When "mother" got the tea.

VACATION IN FOG.

Biggs came into the office with an air of not caring who knew it, and Riggs said to him: "What, back from your vacation so soon? A little earlier than you expected, isn't it?"
"Yes, I am back earlier than I expected," Biggs answered, "and I don't want you to ask me what I came back for either."
"Well, I won't ask you," said Riggs soothingly. "What is it to me?"
"I came back to get warm," said Biggs, "if you must know."
"I don't want to know," said Riggs.
"Isn't it enough," said Biggs, "to have everybody, from the proprietor of my hotel to the elevator man here in the building, worrying me about what I came back for?"
"It seems as if it ought to be enough," said Riggs.

But it appeared that Biggs really wanted to tell, and as soon as the two started for luncheon together he began of his own accord. "I always said," he began, "that New York was the best place to be in the summer. It may be pretty hot sometimes, but New York is better prepared to stand hot weather than any other city in the world. And so with Manhattan Beach and Long Branch and the highlands close at hand. I always thought that the bother of going far for a vacation was more than it was worth, and I seldom went. But this year my cousin Polly wrote to me how lonely it was down on the coast of New England where she is staying, with 20 girls in the hotel to one man, and how much she wanted me to come down, and finally I went down."

"I don't know what I wanted to go for. It wasn't uncomfortable here. The night I got there I nearly froze to death sitting on the piazza. Polly said the wind was a little fresh, even for that place, but I ought to have been there the week before, when the storm was and when they all went out with their winter clothes and rubber boots on to see the waves, and the fishermen said there hadn't been anything like it before since 1873. But the wind was blowing 35 miles an hour right then, and that was enough for me."

"The next morning I put on a fresh, clean outing suit, just as if I had expected summer weather. It was a beautiful suit that I bought on purpose to wear down there, and Polly said she was proud of me, though she was a little afraid I might get pneumonia. Evidently she was proud of me, or of the suit, or something, for all that day she just took me around and showed me to the other girls. I didn't know another soul in the place, so she had me all to herself, and it really was worth something to see how happy she was when she looked at the other girls."

"You'll die of modesty some time," said Riggs. "You ought to do something for it."
"It wasn't altogether so easy showing me to the other girls either," Biggs went on, "for the fog was thick enough all that day to boil potatoes in. Only the air didn't suggest boiling at all. But Polly said that this weather was unusual. She had been here two summers before, and sometimes it was almost warm. She thought that so much cold was a sure sign that it was going to be warm soon. It was foggy all the next day, too, and for that night a moonlight sail was announced. They called it a sail, though it was to be on a steamboat. When I saw the advertisements and saw the fog, I was inclined to make light of it, but I soon found that it was a serious matter, for it appeared that they were going to have it regardless of the weather, and Polly was bent on going and on taking me with her."

"I told her I would much rather sit on the piazza with her alone and talk about the days when we used to make mud pies together, or some other pleasant subject. She said that the disparity in our ages was too great for us ever to have made mud pies together, and she didn't remember anything about it, but it was not too great for us to go on a moonlight sail together. I spoke about the fog, and she said that it was likely to clear up any minute."

"I remember that the last time I had seen the moon, before I left New York, it was past the full. I looked the matter up and found that it would not rise that night till after 10 o'clock. Polly said that the party would probably stay out a good deal later than that, so it would be all right, and anyway a moon was of no great consequence on a moonlight sail. I found at last that she simply regarded that moonlight sail as an especially convenient occasion to dangle me before the other girls some more. It appears that where there are a lot of girls on a moonlight sail men are regarded as uncommonly desirable. I didn't know anything about

it before, but Polly let me into the secret.

"Well, we went. We had not much more than started when I overheard the captain saying to the purser: 'We can't do anything tonight. Wait till we have been out 15 minutes and then go again and take up the tickets, and we'll go back.' Oh, they're a nice, honest lot, these hardy, seafaring people!"

"Why didn't you make a row about it," said Riggs. "If you heard him say a thing like that?"

"Make a row about it? Why, I would have given \$5 to get back if I had the necessary, instead of the 50 cents they asked. But it was not to be. The ship is as full of islands as a ship can be; up, you know what I mean. I was zigzagging about among them. They were creeping around the end of one of them Polly asked me what that was. I was forward was looking for. I thought I must be watching for a lighthouse. I marked the point that the boat was to go around in passing the island. Polly said that she had often wondered why they didn't have those boys placed nearer to the shore, where it would be easier to go around them. Just as she had wondered that there was a bump and a terrible grinding noise and the boat stopped. Her question was answered, and we were stuck fast on the rocks just inside the buoy."

"Well, then there was a row. Children screamed, women fainted and men put on life preservers—on themselves usually, not the women. Polly wasn't frightened a bit. She just sat close to me and gloated over the other girls."

"And what did you do? You were just as brave as she, I suppose."

"Brave! What was there to be brave about? The boat was fast on the bottom. She couldn't have sunk any farther if she had been a sieve, and she probably didn't draw more than five feet of water, so even if we had fallen overboard we should only have had to stand up and our heads would have been out of water. I don't claim any great bravery, but I'm not a fool. Neither is Polly. It doesn't run in the family."

"Oh, I don't know!"

"Well, we stuck there for an hour and a half, till the tide rose and took us off, and Polly gloated. Then they took us ashore, and we walked back to the hotel, and Polly was the only contented person in the crowd. I suggested that we were pretty full of fog and needed something to warm us up. Polly suggested tea. I said that a hot scotch would suit me better, and Polly nearly fainted. She said that this was a no license town, and there probably wasn't such a thing as a hot scotch this side of Boston, and I couldn't get it even if I was there because it was after 9 o'clock. It was then that I thought of New York. The next morning, as soon as the telegraph office opened, I sent a dispatch to you."

"What! That crazy dispatch that you sent to me, asking me to telegraph it back to you, signing 'M. D.' after my name?"

"Yes, and then I told Polly that my doctor had telegraphed to me that the air of that place was too bracing for me and that I must come back, and I showed her your dispatch to prove it. Then I packed my outing suit and came."

"It appears to me," said Riggs, "that your cousin Polly is a good deal more devoted to you than you are to her."

"No," said Biggs hesitatingly. "I don't think so. If I had been one of 20 men, and she the only girl in the place, it is likely that the rest of the conditions would have been reversed too." —New York Tribune.

The Helpless Lord Chancellor.

The responsible office of chairman or president of a legislative body is one that generally carries with it both powers and privileges. There are, however, exceptions to the rule. In the British house of lords it is not the lord chancellor but the whole house that is addressed as "My lords."

The speaker is the sole judge of all questions of order in the house of commons. In the house of lords such matters, when there is a conflict of opinion, are decided by the whole house and not by the lord chancellor.

If several members of the house of commons rise simultaneously to take part in a debate, the speaker decides who shall speak first, but if two or more peers rise together in the house of lords the lord chancellor cannot decide who shall first be heard. It is the voice of the house that determines.

Happily etiquette is so strong in the gilded chamber that it rarely happens when the house by cries expresses its desire to hear one of the contending peers that the others do not give way. But some years ago there was a notable scene over the question whether a peer who had risen from the front Tory bench should be heard in preference to a peer who had risen from the front Liberal bench.

Neither noble lord would give way, and to bring the curious situation to an end Earl Granville moved that the Liberal peer be heard. The house divided on the question and decided by a big majority that the Tory peer should be heard first.

It is difficult for the average man to understand why the lord chancellor should not be able to exercise authority which is vested in the chairman of every public meeting, but there is a subtle constitutional point involved in this apparently ridiculous procedure.

All peers are equal as legislators in the house of lords. No one of them can be vested with authority over the others. Therefore, when a point of order is involved it is the whole house and not the lord chancellor that must decide the issue. —London Sunday Magazine.

The latest Paris device for filling out slender figures consists of ruffles about three inches wide, made of ribbon, muslin or lace to match the gown, sewed inside the body across the bust. They give a soft fullness and are much more healthy than cotton or the heavy pads formerly used.

New Danger Signal.

French newspapers are suggesting a new system for the prevention of marine accidents which proposes to place strongly smelling chemicals in floating receptacles to be attached to the existing light buoys and bell buoys. Cliffs and dangerous shoals are very often hidden by thick fog, which does not allow light to penetrate nor sound to be heard until too late, while the strong smell of some chemical substances would be carried far away, and would indicate to the seafarer with a keen olfactory sense at great distance that he is nearing a dangerous coast.

Good Printing...

Is like good painting—it demands and obtains a second glance. The second glance leads to thought about and knowledge of the thing portrayed, and then on to the artist or advertiser.

The kind of printing as well as the kind of painting that it pays to do and to have done is that which obtains this "second glance." Plenty of the other kind!

We are PRINTERS. Our work obtains glances of admiration, and thus leads on to the end desired. We don't do the "other kind." Put our job room to the test.

Finest Car of the Season.

Janesville has not seen a car of Fruit this season such as we received this morning from Chicago markets. We take no back seat for anybody. The quality is all that any person could ask for, even the most critical buyer. It is a hard matter this season to obtain a class of Fruit anywhere near equal to last year's crop. Especially has it been so with peaches, pears and apples, but our buyer succeeded in securing the choicest lot that has been offered in the city this season.

Extra choice **Crawford Peaches**, every one sound and large; far ahead of former Fruit offerings **Fancy California Bartlett Pears**, certainly luxuries at this season of the year and a very scant article. **Gross Prunes, Italian Prunes, Silver Prunes**--all of them Idaho mountain grown. **California Tokay Grapes, fancy New York Concord Grapes**--the only ones in the city. **Fancy Delaware Grapes** selected personally, every basket.

Great Line of Canning Pears

New York Bartlett, Louis Bond and Duchess. Any of them remarkably nice for preserves; all solid and good size. **Apples**--Fancy Snow Apples and Jonathan Apples for eating; Northern Spies, Vandiver Pippins, Rambonett and Grunes Golden for cooking. The Apple crop this year will be limited, and consequently, prices will be rather high. The stock we have is the choicest to be found; it is all personally selected.

Table Luxuries

Fancy fresh Lettuce, 2 heads for 5c. Fresh shelled Lima Beans, 15c a quart. Cauliflower, large fine heads, 10c each. Columbia River Salmon, direct from Portland, Oregon, only 10 cents per pound.

Remarkable Progress of a New Store.

THE LEADER is enjoying an immense trade, which, considering the comparatively short time it has been in business, is remarkable. There are plenty of good reasons why it should have a large majority of the economical buyers as its customers. First--**THE LEADER** carries the stock that has not its equal in Southern Wisconsin for variety or quality. Second--Its prices on goods of every description are lower by half than any other dealer's in this section of the country. **THE LEADER** discounts every bill and secures the very lowest figures obtainable on all commodities, and it sells articles for what other stores pay for them. Third--**THE LEADER** has a business principle that wins friends for it with each transaction no matter how small it may be; it treats everybody alike, does not take advantage of anyone, does not make one price to one person and another to the next. A child can get the same courteous treatment in its one-cent purchases as the older person with his \$25 or \$50 investments. **THE LEADER** is a department store; it sells everything and anything that is of use to the human family; its stock is increasing every day, new lines are being added constantly, and every new idea that can be thought of in connection with **THE LEADER'S** popularity with the public is being acted upon. Our store is always crowded; you wonder why? If you have a purchase to make and come to us for it you won't remain puzzled long. A guaranteed saving of 25 to 50 per cent. on all lines; its low prices and reliable goods make lively purchasing.

EVERYTHING THAT IS MADE IN

**Tinware, Graniteware, Agateware,
Hollow-Ware, Steelware, Kitchen Utensils,
Hardware, Willow-Ware, Woodenware, Etc.,**

We sell at half the price of other dealers. Our **CROCKERY** and **GLASSWARE** department is worthy of especial notice. We import direct from England and France the daintiest goods imaginable--the prettiest pieces and sets of dishes, and at the lowest prices Janesville ever saw. You can buy Jewelry, Watches, Cutlery, Carving Sets, Toilet Articles, Albums, Dolls, Trunks and Satchels, Telescopes--anything and everything you want, and at just half the price of other stores.

...THE STOVE YOU BUY...

Must be a good one. **SUNSHINE STOVES** and **RANGES** are the best. A written guarantee with every one; over 75 different patterns, from \$2.50 up. We sell you a heating or a cooking Stove 35 to 45 per cent. cheaper than you have been in the habit of paying; a man of lifelong hardware and stove experience in charge of the department--Mr. Adam Sanner; he sees personally to every Stove, to setting up all Stoves and looking after all details. The easiest way to be convinced of any matter is to come in personal contact with it; that's what what we want you to do in **THE LEADER'S** case--come and see for yourself, get acquainted with facts; take nobody's word, get our prices, see our goods and you will know then how truthful every statement we have made is. We welcome you, buy or not as you please.
